Step 1 — Connect network cables

⚠ Management and Data **must not** be in the same subnet

ⓘ Management and Data may be combined to one interface later

- Connect 1GB Ethernet to Management port for Configuration via WebUI

- Connect Ethernet cable to data port.
  - Internal interface if no external card equipped
  - External 10GB card if equipped

Step 2 — Connect power supply

- Start up your system by connecting the power cables

This document was generated on 2022-03-09 03:13:04 AM (MST).

Step 3 — Receive the IP Address

ⓘ G2000 will try to receive IP addresses via DHCP on management and data interfaces

- If no DHCP server can be found G2000 will assign fallback IP addresses as follows
    - Management: 192.168.1.1
    - Data: 192.168.2.1
- The assigned IP addresses may be checked via...
    - ...G2000 EPaper Display
    - ...monitor output

Step 4 — Connect to the UI

- Open the Webinterface via management ip "https://<ip>/
  - Default username: admin
  - Default password: adminadmin
