Step 1 — General Information

⚠️ **Requirements** Compliance Option is necessary to enable various WORM volume types.

ⓘ **Installation and Connectors** Installation and electrical connection as well as network connection are to be done as described in the manual Installation

ⓘ **Network Adjustments** The network settings are to be adjusted as described in the manual Installation

Step 2 — Volume Settings

- Create an archive including WORM and Stage Brick

- Create a sub-volume of type WORM with Retention.

- The retention period in years and days must be adopted to the value necessary for the data content being archived

- Select the option 'Prevent renaming of files'

- Select the option 'Do not archive 0-byte files'

This document was generated on 2022-03-09 03:13:31 AM (MST).

Step 3 — Share Settings

- Create a SMB user in the SMB section of the user interface or join the active directory.

- Create a **SMB** share for the previously create volume

- Add the dedicated SMB user to the share permissions.

Step 4 — Connect CC-Egov

- Get in touch with CC-Egov in order to connect to the previously created share.
